Question 61: How many inside/outside operators staff your FCC plant? What other processes are included in their scope of responsibility?

ZACH BEZON

[United Refining Company (URC)] Our FCC unit has five operators per shift. Typically, two people a	שוג
inside running the DCS (distributed control system) and board-mounted controls while the other thre	ee
are doing rounds in the unit. Units included in the FCC are:	

inside running the DCS (distributed control system) and board-mounted controls while the other three are doing rounds in the unit. Units included in the FCC are:
*FCC,
*Gas concentration unit,
*Polymerization unit,
*Alkylation unit (H2SO4) with a dedicated satellite control room in this unit,
*One boiler,
*Multiple cooling towers, and
*Gasoline treating unit.
